

MACHINE SHOP SECTOR 2 - LATHE PRODUCTION LOG, AUGUST 2026

Prepared by: S. Kale (production supervisor) Period: 01 to 31 Aug 2026

MACHINE	TYPE	BUILT	UTILISATION	SCRAP	FLANGE BLANK
L-2	CNC turning centre	2019	64%	1.2%	6.5 min
L-3	conventional lathe	2012	81%	4.8%	17 min

The scrap target for turned parts is 2.0%; L-3 exceeded it in every week of August.
Turning backlog across the shop: 320 jobs, of which 118 are pump spares.
Overtime on lathes in August: 96 hours. L-2 has about 30 hours a week of spare capacity.
Sleeve jobs moved from L-1 to L-3 in August raised L-3 scrap on those jobs.
